

Transaction Journal

This journal is a record of the last 32 transactions. (A transaction is recorded each time you attempt to send or receive a document.) You can print the report in the following way:

- 1 Be sure no document is on the document feeder.

	Press	Display
2	COPY and 2	09-20-1990 03:00P
3	START/ENTER	09-20-1990 03:00P

The fax machine starts printing the journal.

The fax machine's holds up to 32 transactions. If you send or receive more than 32, only the last 32 transactions print. If you use your fax machine frequently, we suggest you print the journal periodically so as not to lose records of your transactions.

Note! Your fax machine is preset at the factory to permit you to send documents even when it does not have any recording paper or when a mechanical error that affects receiving (such as an overheated print head) occurs. With this setting, however, some transactions might not be recorded on the journal.

Memory Dial Number List

To print out a list of all the telephone numbers you recorded under memory dialing numbers:

- 1 Be sure no document is on the document feeder.

	Press	Display
2	COPY	09-20-1990 03:00P
3	START/ENTER	09-20-1990 03:00P

The fax machine starts printing the list.

Fax Parameter List

To print out a list of the special parameters:

- 1 Be sure no document is on the document feeder.

	Press	Display
2	COPY and *	09-20-1990 03:00P

3

START/ENTER

09-20-1990 03:00P

The fax machine starts printing the list.
