

Circle Song

$\text{♩} = 120$

What if life were a cir - cle, — that held eve - ry one in - side?
Kept them safe, kept them ha - ppy, — would you come in - - to that cir - cle?
Would you grow it? — Is your he - art big e - nough to let more in - to it? Tell me
of the crea - tures, — of the flow - ers and the trees and the fra - grance of the breeze.

2. What if God drew a circle, that held every one she loved?
Just how large would she make it? Would it go around the world?
Even greater, Would the whole universe fit inside that cosmic circle?
And if we could draw a circle like that would we know the heart of God?
